

# Croydon Creek Nature Center

## Spring Festival & Native Plant Sale

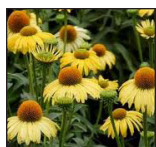

Saturday, April 26, 2014 • 10 a.m. to 2 p.m.

**Plant sale pre-order deadline April 10, 2014 • Pick-up orders April 26, 2014, from 10 a.m. to 2 p.m.**

**Why use native plants?** Native plants are adapted to local weather and soil environments. These plants allow homeowners to add beauty to their landscape while preserving natural heritage and providing habitat and food for area wildlife, including a variety of bird and insect species. Additionally, native plants require less long-term maintenance compared to exotic ornamental species.

Support Croydon Creek Nature Center while supporting the environment! **Please make check payable to: City of Rockville**

### Native Plant Descriptions

#### Deam's Coneflower

Golden yellow blooms last July to October providing seed for birds and nectar for butterflies. Height: 1.5-2 ft. Exposure: full or partial sun

#### Purple Coneflower

Drought tolerant species that is a great butterfly and bird magnet. Flowers July through August. Height: 2 to 3 feet. Exposure: full sun.

#### Columbine

Gorgeous red and yellow pendant-like flowers bloom late April to June. Height: 1-2 ft. Exposure: shade or partial sun.

#### Stonecrop

A succulent and low growing native that is a great groundcover for shady areas. Height: 6 inches. Exposure: shade to partial sun.

#### Turtlehead

Light green foliage topped by spikes of cream colored flowers mark this late summer bloom. Attracts native butterflies. Height: 2 to 4 feet. Exposure: partial shade

#### Blue False Indigo

A bushy perennial with bluish purple pea-like flowers and pod like fruits that is drought tolerant. Height : 2-4 feet. Exposure: Full sun

#### Blue Star

Pale blue star shaped flowers top willow like foliage that turns from green to gold in the fall. Great for use in a rain garden. Height: up to 3 feet. Exposure: full sun to partial shade.

#### Virginia Bluebell

A native woodland flower with blue bell shaped flowers at the end of arched stems with large smooth leaves that thrives in moist soils. Height: 1-2 feet. Exposure: Partial shade to partial sun.
